HVAC Clamp Meter (CL440)

Klein Tools CL440 Clamp Meter is an advanced HVAC clamp meter with automatically ranging true root mean square (TRMS) for maximum accuracy. The meter measures AC current, inrush current, AC/DC voltage, DC microamps, resistance, continuity, frequency, capacitance, temperature, diodes, and more. This Digital Clamp Meter comes with right-angle input test leads, push-on alligator clips, K-Type thermocouple, storage pouch, instructional manual, and 3 x AAA batteries.

Specifications

Type:	HVAC TRMS Clamp Meter	Ohms (Resistance):	60MΩ
Application:	Measures AC Current, Inrush Current, AC/DC Voltage, DC Microamps, Resistance, Continuity, Frequency, Capacitance, Temperature, Diodes, and More	AC Voltage:	750V
Special Features:	Automatically Ranging True Root Mean Squared (TRMS) Measurement Technology for Accuracy; NCVT; Added Temperature	DC Voltage:	600V
Material:	ABS and Electrical Components	DC Polarity Indicator:	Yes
Batteries:	3 x AAA	DC Micro-Amp:	600µA
Auto-Power Off:	Yes	Temperature Range:	-328° to 2462°F (-200° to 1350°C)
Jaw Size:	2" (5.1 cm)	Standard:	CAT IV 600V, CAT III 750V, Class 2, Double Insulation Safety Rating
Drop Protection:	3.3' (1 m)	Included:	Right-angle Input Test Leads, Push-on Alligator Clips, K-Type Thermocouple, Storage Pouch, Instruction Manual, and 3 x AAA Batteries
Display:	6000 Count LCD	Overall Length:	10.04" (25.5 cm)
Functions:	TRMS, AC Current, Inrush Current, AC/DC Voltage, DC Microamps, Resistance, Audible Continuity, Frequency, Capacitance, Temperature, Non-Contact Voltage Testing, Diodes, Min/Max, Data Hold Capability	Overall Height:	1.57" (4 cm)
Voltage:	750V AC; 600V DC	Overall Width:	3.77" (9.6 cm)
Frequency:	60 kHz	Weight:	14.2 oz (402 g)
Current:	600A	UPC:	092644693359
Capacitance:	6.000mF
